

PDIG: Video Curation of RHS Soccer Concentration Program

In mid-February, a member of Andy Walker's family was faced with a serious medical emergency which required him to take an extended leave from work. As a result we were unable to complete the final three days of the PDIG.

In total, 3 of the 6 days were used. We were approaching the half-way part of the project. The first video was completed: Growth Mindset & Breaking Through Barriers. [Click here for the youtube link](#). The basic plan had been established for the TED Talk - style presentations that we were to film in mid-March, but was put on hold.

It was hoped that Andy would return in time to consider re-applying for the 2018-2019 grant to complete the project, but it was not possible.
