SIMS NASOGASTRIC TUBE PATIENT CHART

Shift total										
This is a worksheet to be used at the bedside to keep track of each intake and output. The totals will then be recorded on the 24 Hour Fluid Balance Sheet										
Fluid measurements: 1 cc = 1 mL • 1 ounce = 30 mL • 8 ounces = 240 mL • 1 cup = 8 ounces = 240 mL • 4 cups = 32 ounces = 1 quart or 1 liter = 1000 mL
